# Highlights

## Transitional style

A peaceful coexistence of traditional and contemporary finishes, materials and fabrics equate to a classic, timeless design. Styles are simple yet sophisticated, featuring either straight lines or rounded profiles. A lack of ornamentation and decoration keeps the focus on the simplicity and sophistication of the design, offering an aesthetic sense of balance that is pleasing to the eye.

## Indoor

When decorating your home with light, consider if the area requires general lighting, accent lighting, task lighting, or perhaps all three, to complete the necessary layers of light for comfortable ambience.

## a la carte

Lighting the way you want it! A la carte is a simple concept that allows the combination of different fixture frames and shade options to create a custom look from standard components.

## Order holder separately

Select the appropriate pendant, chandelier or sconce holder for your application from our wide selection, and then choose the shade or glass option designed to install perfectly onto the holder to complete your customized light fixture.
